**SEVEN OF FEW**

GOOD PAPER

## **SOF BRINGS AN INNOVATIVE MIX:**

An NFT collection combined with traditional game dynamics which are weaved together by a narrative story.

## NFT COLLECTION

The SOF collection has a total of **7 unique puzzles** that have been kept safe throughout history by SOF (our main character).

Each puzzle is composed of 7 individual pieces. However, SOF needs to find a new guardian for these ancient puzzles among us. In order to achieve his objective, SOF used the last of his energy to create copies of almost every piece in the collection. This collection is now composed of 1036 tokens.

**Only 7 of those remain completely unique.**

NUMBER OF PIECES  
THAT FIT THE SAME  
PLACE IN THE  
PUZZLE.

PIECE 1 → 1  
PIECE 2 → 7  
PIECE 3 → 14  
PIECE 4 → 21  
PIECE 5 → 28  
PIECE 6 → 35  
PIECE 7 → 42

PIECES →

1 2 3 4 5 6 7

Something's different this time.  
SOF puts himself at risk and using his own energy;  
multiplies each of the pieces that make up the puzzles.

**Not all pieces have the same amount of variants,**  
but they will all serve to complete the relic. A single piece  
will be unique in each puzzle.

All pieces are composed of:  
ELEMENT - ESSENCE - VARIANT - ENERGY - DENSITY -  
CORE - ANTIQUITY

This forceful multiplication gave the pieces strange  
fluctuations in their properties.

## **SALES METHODOLOGY:**

This collection will be released in 7 different segments. Every Thursday starting July 7, we will premiere a new puzzle, which includes:

- Auction of a unique piece of the puzzle at hand.
- YouTube release of a new episode of our exclusive series.
- 147 pieces available for minting on our web 3.0

This process will be repeated with each part of the collection until August 18.

## THE GAME & OTHER BENEFITS:

Getting all 7 different pieces within the same puzzle, unlocks the ability to mint a unique emblem that certifies this achievement.

There are 7 different emblems available (one for each complete puzzle) and they are all intransferable. Once an emblem is minted, the owner will be able to sell the individual pieces once again without losing the emblem.

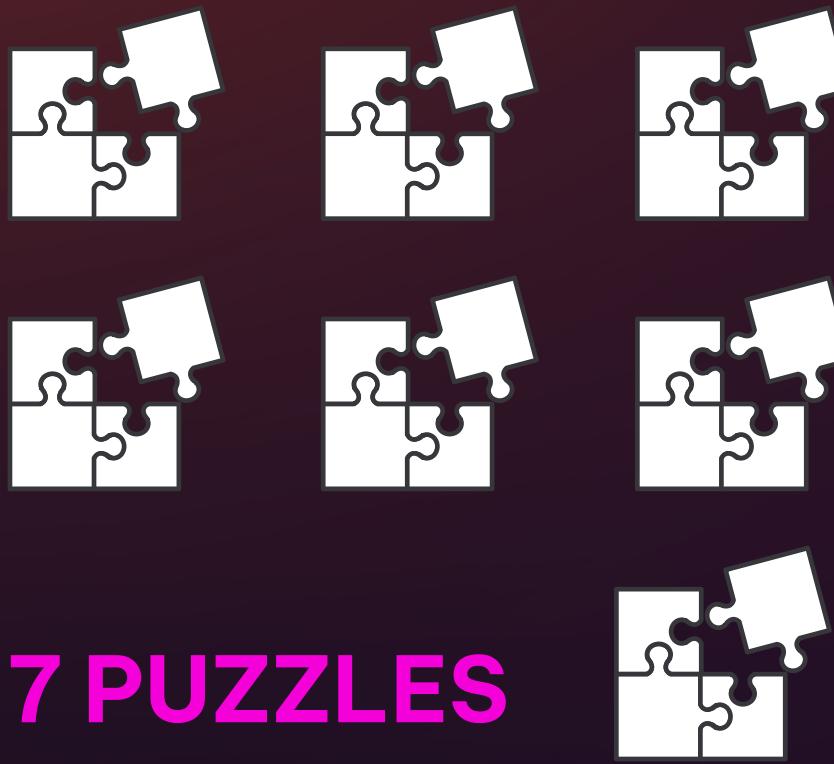

In order to win this game, **you must be the first one to collect all 7 emblems** and become SOF's heir. Only one person will be able to win this competition.

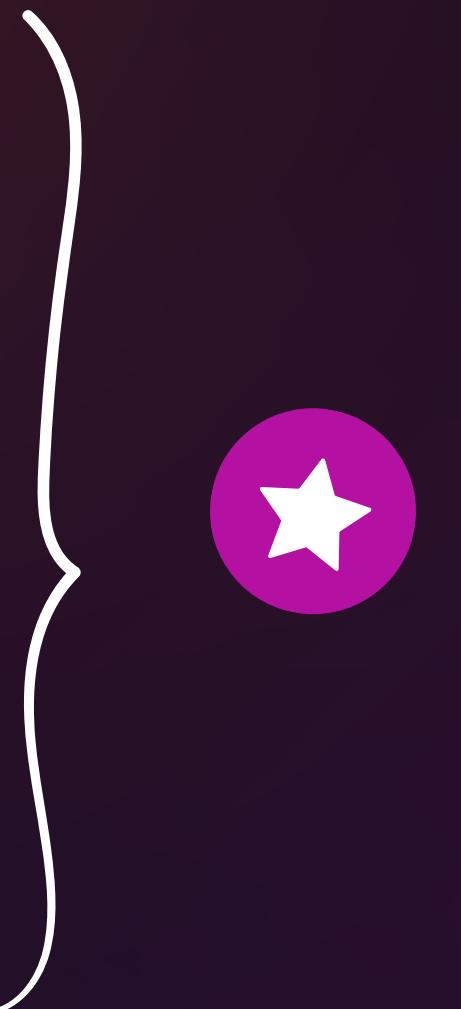

## THE GAME & OTHER BENEFITS:

However, both individual pieces and emblems won't be useless once the game ends. Exclusive benefits will be granted to holders within our community. Moreover, this is just the very first chapter of a larger story that will continue in future collections.

# SOFS HEIR

**7 PUZZLES**

**THE WINNER GETS:**

- **Exclusive Rewards.**
- **A position within the SOF project.**
- **Active participation with the storytelling.**

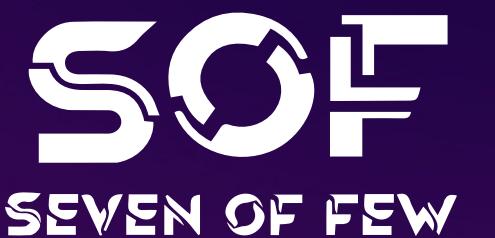

SOF comes from a world similar to our own, where the confines of the imagination were defied.

SOF is the only one that knows the true limitations of this reality humanity is bound to.

SOF must trust the technological advances humanity achieved to try once again. SOF must bring a reality where true freedom exists.

**¡ SOMEONE MUST CALIM THE 7 PUZZLES AS THEIR OWN !**

“The thought of living in an universe that is infinitely expanding but also has limited parameters is simply ridiculous.“

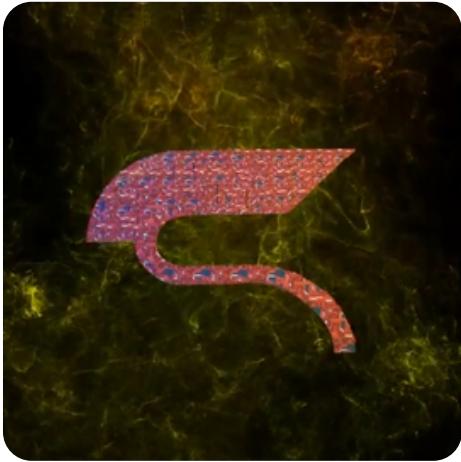

# Our first release

The power SOF holds is so massive, it is wearing him down.

SOF has tried throughout history to get rid of the different relics, the puzzles, but has always failed.

**The seventh attempt will be the last one.**
